1. The following is an examiner's statement of reasons for allowance: The claims have been allowed because claim 1 recites a dispensing tip positioning and storing apparatus having drum mechanisms (A1-A4). The drum mechanisms agitate the tips using an agitation bar that rotates about a horizontal axis and postures the tips so as to be almost aligned with the horizontal axis. There is a tip direction aligning mechanism (16) to align the tips where the distal ends are pointed downward. There is a common conveying lane (17L, 18L) and a tip inserting mechanism that inserts the tips into a tip holding rack (2)..The cited art to Nemoto et al and Shirodera merely utilizes a rotating drum to facilitate the posturing or alignment of the articles. There is no agitation bar that rotates about a horizontal axis within the drum, as well as, the alignment of tips for a downward posture or the insertion of tips into a rack..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
